Dear Sirs:

I want to tell you, your August CRACKED was great. Do more stuff on comics like Bob Hope and Bing Crosby. My favorite is Danny Thomas. Do a photo story on him.

PAUL GLADY
ELMHURST, N.Y.

We wanted to do a story on Danny Thomas but we discovered his nose alone took up two pages.

Dear Cracked:

In your Cracked Magazine (July issue) you had an article on YOGA and I tried the "fetalasana" position. Now I can't get un-tangled. My right arm is caught under my left leg and my left arm is hooked on my right big toe. What can I do?

JOEY DE CARLO
PHILADELPHIA, PA.

Maybe you can become a model in a pretzel factory?

Dear Cracked:

It was in March of this year that my neighbor, Mr. Shatterbrain, introduced me to a back issue of CRACKED Magazine—a June issue. Now I will take my eyeballs out of the dresser drawer any day to read CRACKED.

Since the June issue came out in March, I am curious as to when you publish the issue for March.

Keep up the good work and we will continue to laugh.

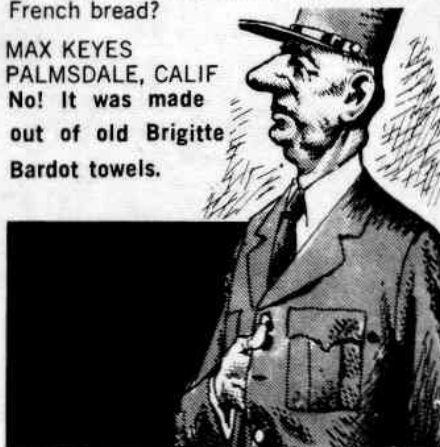

J. C. TAYLOR
TAYLORS, S.C.

We asked Sylvester P. Smythe and he said he didn't know. He claims somebody stole his Chinese calendar.

Dear Bats:

Bravo and hee-da-haw! Your story on the CRACKED World's Fair was too funny for words. Especially liked the jazz on the French exhibit. Was the General De Gaulle Statue made out of stale French bread?

MAX KEYES
PALMSDALE, CALIF
No! It was made
out of old Brigitte
Bardot towels.

CRACKED magazine would like to thank the following motion picture companies for the use of their still pictures: UNITED ARTIST, PARAMOUNT, WARNER BROS. Also THE BETTMAN ARCHIVE.

Dear Editor:

I just read your article about the Beatles (July issue). It was a smashing story. Please print more.

CAROL SHARP
WEST MONROE, LA.

We got a lot of mail on this article. Most of it from barbers.

Dear Cracked-Ones:

I'm just in love with your monster characters. They're better than the Beatles. I adore CRACKED and Sylvester P. Smythe too. Print CRACKED more often because that's all they let us read in the institution.

NORMA STERN
CLEVELAND, OHIO

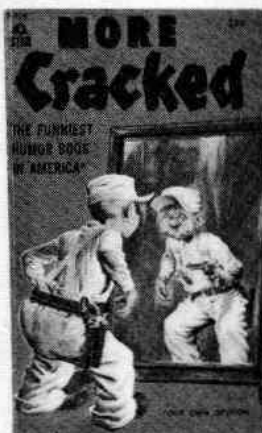

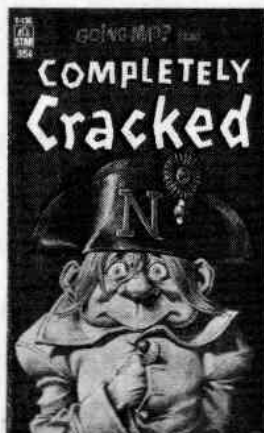

We would like to publish CRACKED more often, but our head artist claims he only has three hands.

Dear Clods:

This is my first fan letter to a magazine. What should I write on?

LOLA MACKNEY
TWIN FALLS, IDAHO

On paper, is preferable.

5 things to do when you remodel or add a bathroom

(Put in a five cent coin slot;
Hoo-haa! Will you make money)

1.

Pound the Tub

(No, not with a sledge hammer)

How does it sound? Does it Ring?—Your hand I mean. That's what we wanted to happen. (American-Stanleyard also sells band aids and bandages—sneaky, eh?) The solid thud proves that your tub won't rattle like a snare drum or two skeltons roller skating on a tin roof when you step in or fall down and break an arm. Our tubs are made out of cast iron and old Thomas Dewey campaign buttons. Remember an American-Stanleyard tub will last for years (OK—maybe for a month or two.)

2.

Tap the Lavatory

(If it taps back, watch out)

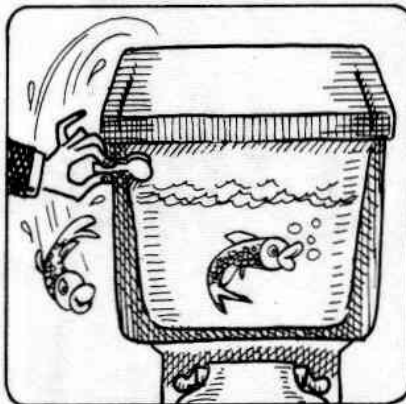

Use your wedding ring—or a baked potato—Listen, for a clean, shrill "Zing." What

makes an American-Stanleyard sink a great buy is the "Big-Bowl" styling. Bowl areas large enough to handle all the fink-like jobs you'll bring to them. Like small laundry, hair washing, baby dunking or washing out an old first baseman's mitt.

3.

Flush the Toilet

(Oops, not working, eh?)

Which way does the water leave the bowl? (Isn't this a real stupid question?) It should run out at the rear of the bowl—away from you. (Don't just stand there in your wet feet—go get a pair of dry socks) Let's try it again . . . (hmmmm!! I told Billy to stop throwing his old bubble gum wrappers and hockey pucks in there) American-Stanleyard has been making toilets for over 70 years. And in all that time, not one customer has had a kind word about our products! (Soreheads)

AMERICAN-STANLEYARD

PLUMBING AND YCCCH DIVISION

4.

Count the Faucet handles

(Maybe one of your house guests stole the "hot" one)

One-hand control is easier than two (not while your driving a car or playing golf it ain't, Mac) You adjust water temperature and water flow simultaneously. No more fooling around with the faucets! Even children can work it. (Adults have a pretty hard time getting them to work) American-Stanleyard push-pull-drip-drop* faucets have no washer (We use a small hard doughnut)

5.

Send for our new booklet

Please send your new booklet "HOW TO FIX SINKS AND PRIZE FIGHTS." I enclose 7c to cover mailing. I am modernizing—I am building—I am renting a bathroom—

Time was when Ivy League schools were places where the scions of wealth and society could dawdle away their time until they reached manhood.

But all this has changed in recent years. These institutions have suddenly switched from being warm beds of comfort to hotbeds of learning. And worst of all, at exam time the Smart Set finds its smartness being questioned.

The School Supply Room ever ready to supply the student body with its basic needs.

Typical Student Quarters in School Dormitory—Room conditions may seem a bit austere but a certain amount of deprivation is deemed necessary for character building.

Classes commence at 2 P.M. sharp. Students choose their own form of transportation to class.

There is never a need to raise one's voice in a Snob U. classroom.

Classes are never dull and dry at Snob U. Here the instructor attempts to introduce a little native atmosphere into his Spanish language course.

Half hour classroom coffee breaks are limited to four a day.

Students are expected to cavort themselves as gentlemen. Accordingly, punishment is meted out for any lapse in conduct.

Animal Husbandry is a very popular course. Notice the intense manner in which students pursue their subject matter.

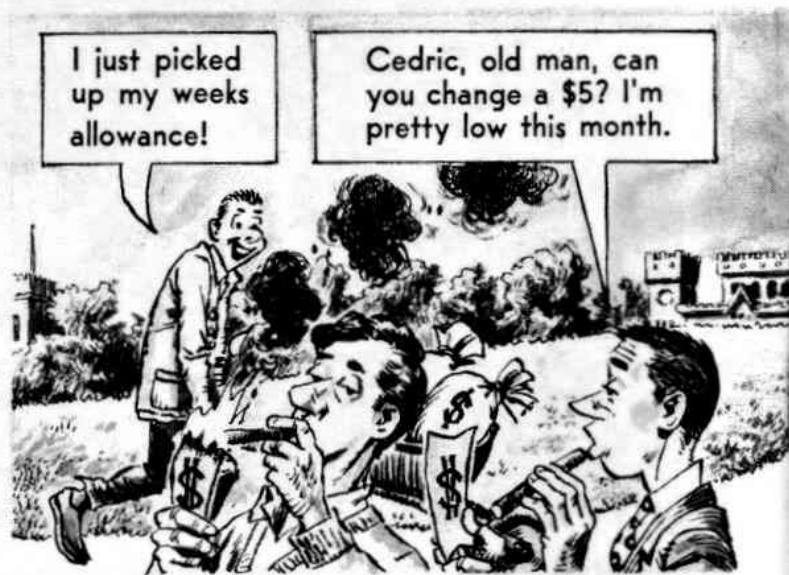

The Ski Class is shown leaving for St. Moritz to do a little week-end practising.

In the **Horsemanship Class** students are encouraged to exercise their ingenuity in overcoming hurdles.

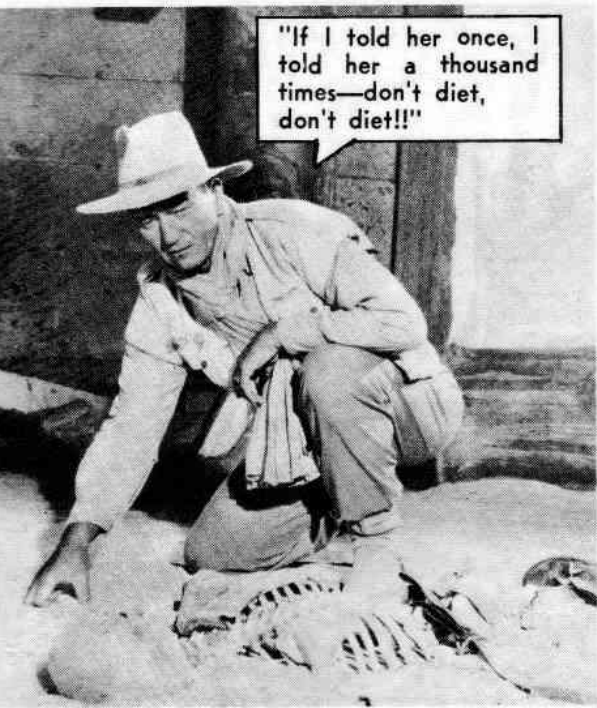

Students are expected to budget their allowance and not wire home for additional money.

The Annual School Dance—It takes hardships to build character, and at SNOB U. this is accomplished by making the students dance with girls from the local "400."

A MARTIAN

Dear Mom and Dad:

We landed in a strange-looking place called "Flatbush, Brooklyn." The natives were friendly except one angry-looking man who was wearing a blue uniform and kept yelling he would give me a ticket for double parking my space ship. (I parked it on top of a bus.)

Later I walked along the street and the natives gave me many funny looks. In fact one native staggered out of a place named "Mike's Bar and Grill" and stared (cont'd)

When I showed them how we smoke on Mars, they were startled. (I put the cigarette in my left ear and let the smoke come out of my toe nails.)

Another strange thing they do here is to drive on the right side of the road. But get this—their right is our left and so they're really driving backwards.

FADS AND FASHIONS

Transylvania is famous for its Charm Harm School where girly ghouls are taught the graceful way to sit on victims, as well as the correct posture for descending dungeon stairs.

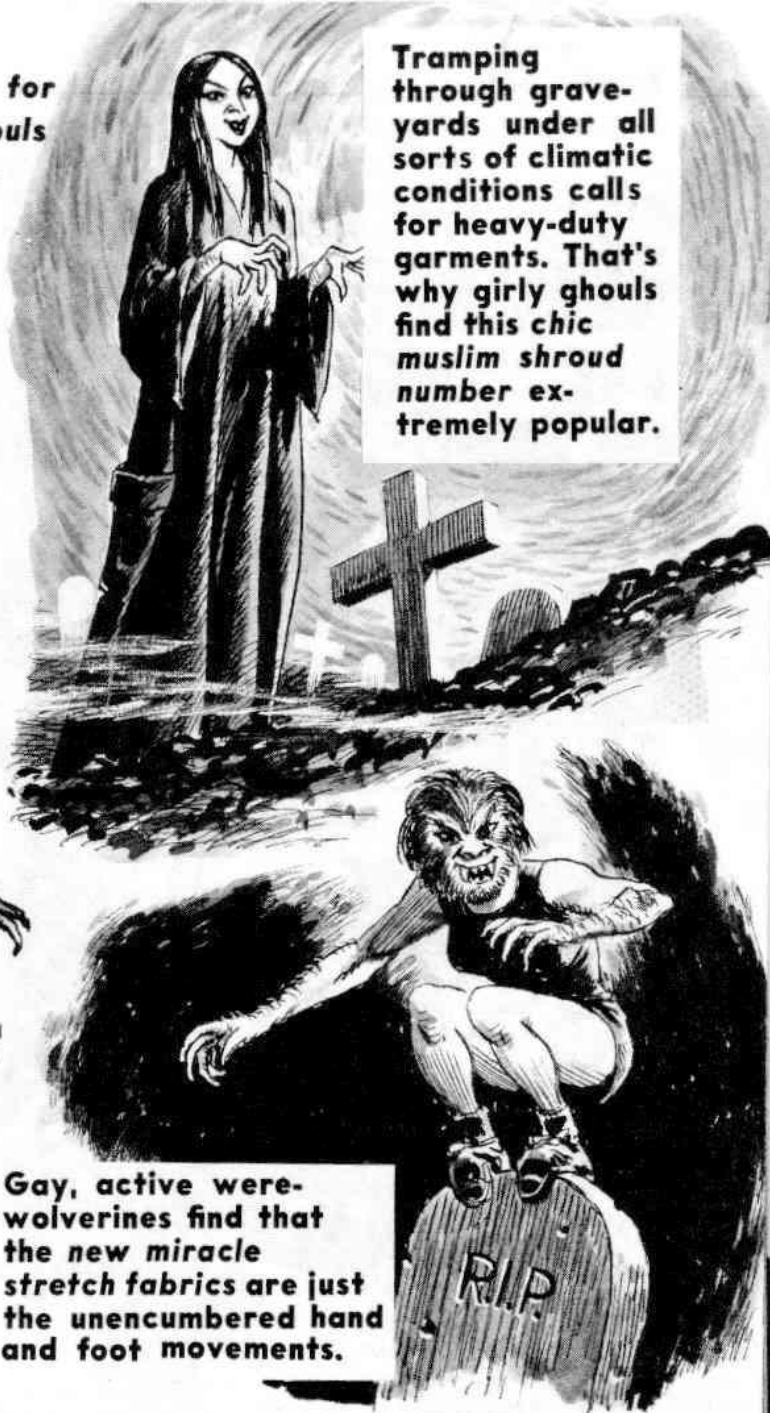

Here a Transylvanian cat girl at the school demonstrates the proper way to pounce on a victim. Student cat girls start out with birds and gradually work their way up to humans.

Transylvanian girl with clear complexion problems find that there's nothing quite like Cover Ghoul Make-Up to bring out blemishes fast. It also keeps the skin looking wonderfully grey, moldy and full of scars.

Gay, active were-wolverines find that the new miracle stretch fabrics are just the unencumbered hand and foot movements.

Tramping through graveyards under all sorts of climatic conditions calls for heavy-duty garments. That's why girly ghouls find this chic muslim shroud number extremely popular.

DATING FADS

If a girl wears a hangman's noose on the right side it indicates she would like to go steady.

If she wears it on the left side it indicates she does not care to go steady.

... and if she wears it this way —she is going steady!

DATING

Scientific dating bureaus simplify the business of getting dates by bringing together creatures with similar interests, similar backgrounds, and a similar number of hands and feet.

G-Gosh! You're ravishing!

I had no idea such an incredibly handsome creature existed!

Moleman, I have just the girl for you — a really earthy type!

Darling, you're just my type!

Yes, type "O"

F-G

SHRIER DATE BUREAU

However, some Transylvanian teens prefer the direct approach in lining up a date.

... while still others have their own technique for digging up a date.

But only the bravest resort to the riskiest form of dating — blind dates.

Take this monster away!

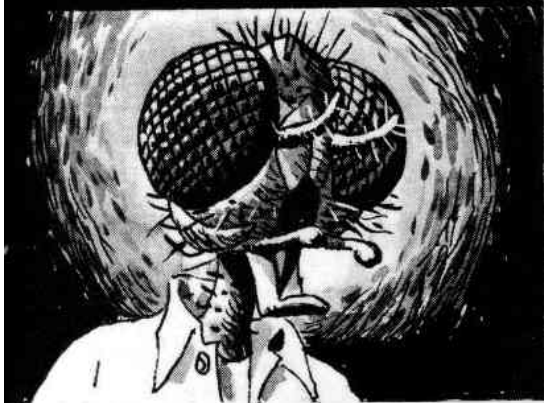

RATING DATES

WHEN IT COMES TO FINDING OUT WHAT KIND OF BOY MONSTERS MAKE THE BEST DATES MONSTER GIRLS ARE VERY MUCH LIKE FEMALES THE WORLD OVER.

(This page is reprinted through the courtesy of "Cool Ghoul," the foremost teen publication in all of Transylvania.)

FLY BOYS BAD DATE

Besides, always dirtying your ceiling, these ill-tempered lads are always flying off the handle.

SUN CREATURES GOOD

These hot-blooded loverboys from the Sun make sizzling dates. If you expect to do any petting, bring along your asbestos suit.

MUMMYS BAD DATE

These self-centered egotists are completely wrapped up in themselves. However, some female vampires have been known to lick their chops over these Nile nillies.

SEA CREATURES BAD

Invariably these drips turn out to be wet blankets at every party. If you go dining with one of these cheap-skates expect to eat only seaweed.

RUBBER BOYS BAD DATE

Shy away from these stretch wretches. Not only are they made completely out of rubber but so are their checks.

THE OOGOOS GOOD

Everyone agrees that the good-natured Ogoos would make the best dates in all of Transylvania . . . if only there was some way of telling their sex.

STONE MEN BAD DATE

The road of love will be a very rocky one if you go out with one of these stone-hearted creatures . . . besides which, he'll feed you nothing but rock candy.

CENTIPEDE MEN

SUPER DATE

They make the best dancers in all of Transylvania. They can dance the Monkey, the Chicken and the Nitty Gritty . . . all at the same time.

FAVORITE PASTIMES OF TRANSYLVANIAN TEENS

BEETLEMANIA

Everyone in Transylvania is simply bugs about the No. 1 rock 'n' roll band—the Beatles

DRIVE-IN BLOOD BANKS

are the favorite teen hangouts for pre-dawn snacks.

BABY-SITTING

Transylvania girls are so fond of baby-sitting that they do the chore for nothing.

BASEBALL

The ambition of every Transylvanian boy monster is to bat 300.

PIECE CORPS

Every Transylvanian teen considers it his patriotic duty to volunteer for the Piece Corps.

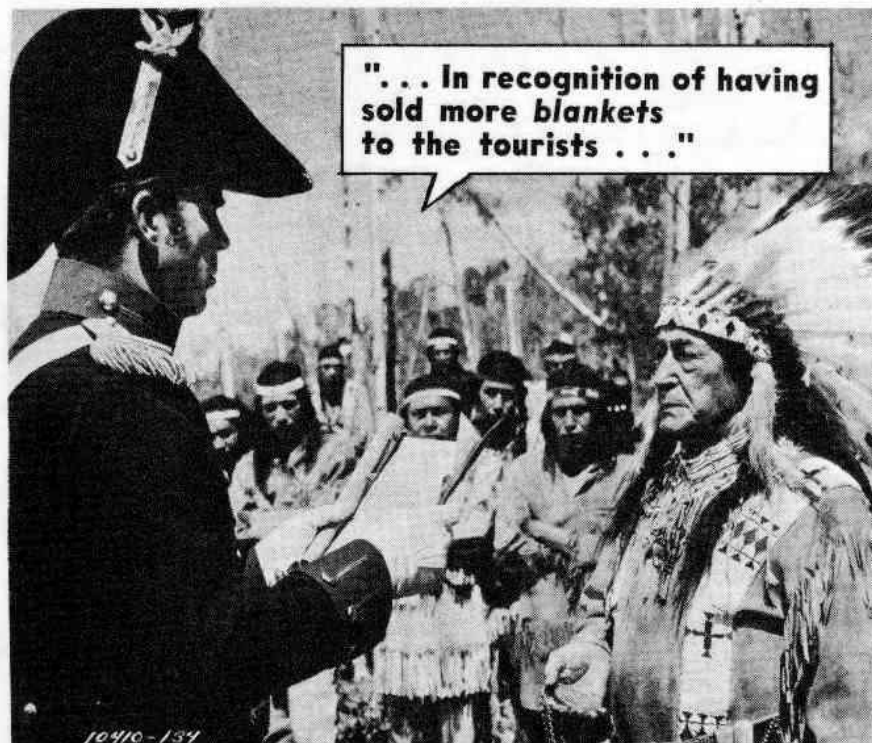

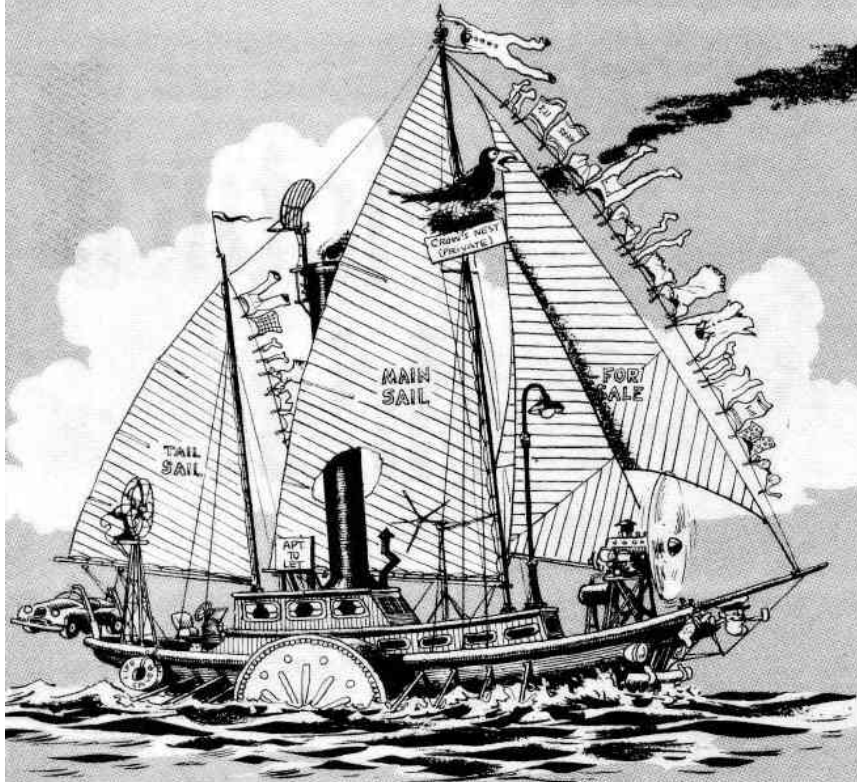

The Corps goes to other countries and tears it to pieces.

BUILD

For only \$100!

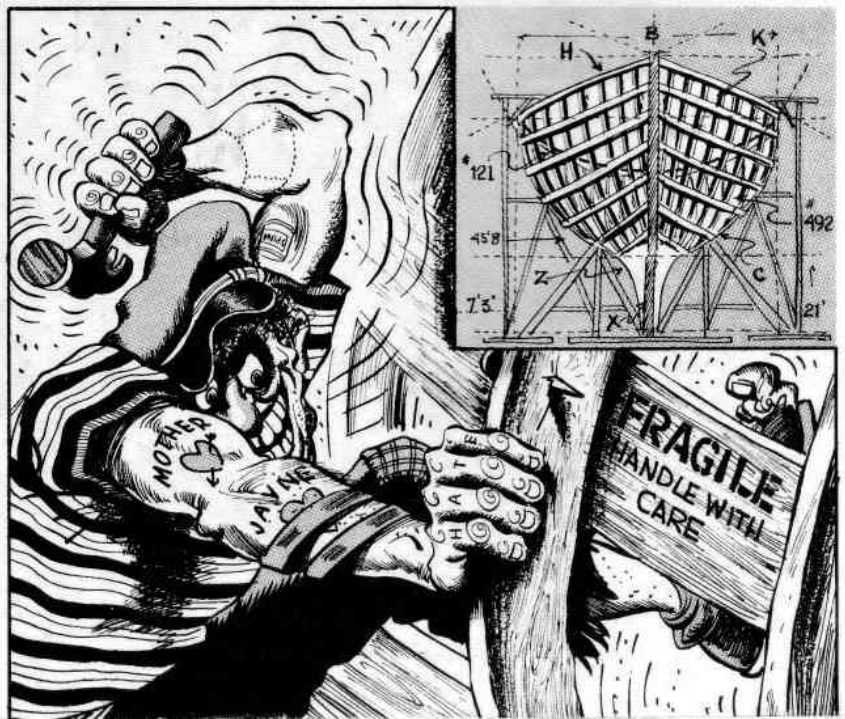

THAT'S RIGHT! FOR ONLY \$100 YOU CAN BUILD AND EQUIP THIS WONDERFUL, SEA-GOING, LUXURIOUS MARVEL OF THE WAVES.

THIS NEW HANDY DO-IT-YOURSELF YACHT KIT PROVIDES THE IDEAL HOBBY FOR YOU AND YOUR FAMILY. THINK OF ALL THE FUN THE WIFE AND KIDS WILL HAVE AS THEY WATCH YOU BREAK YOUR BACK AND LOSE YOUR MIND TRYING TO FOLLOW THE PLANS.

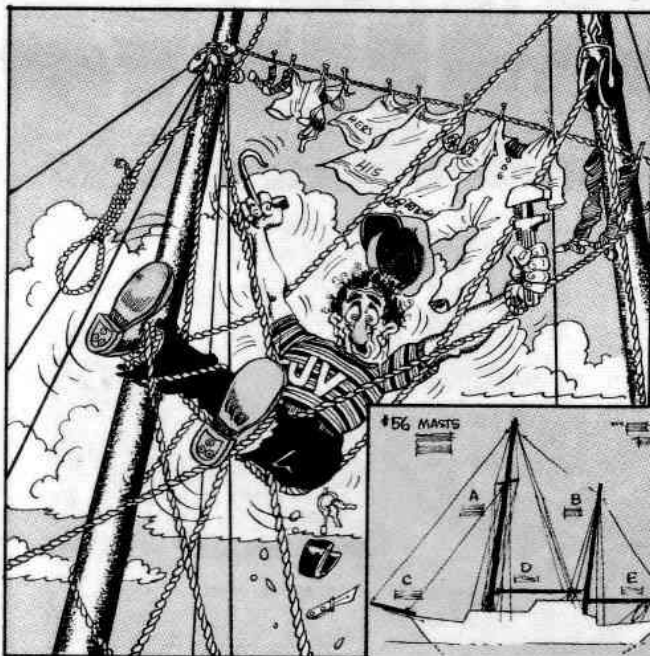

STEP NO. 1: LAYING THE KEEL. THIS IS THE MOST IMPORTANT STEP OF ALL, BECAUSE IF YOU LACK A BALANCED KEEL YOUR YACHT WILL SINK. FOLLOW DIAGRAM CAREFULLY, MAKING SURE THAT YOUR KEEL SCREWS HINGE ONTO THE LOWER DECK PLATE (A) WITHOUT RUBBING AGAINST FRABNEY HATCHES (B & C). YOU MAY WANT TO IMMEDIATELY SHELLAC THE BARCUS PLATES. IF SO, AVOID DISENGAGING THE GLOMBS. REMEMBER! CONSULT INSTRUCTIONS BEFORE EVERY STEP.

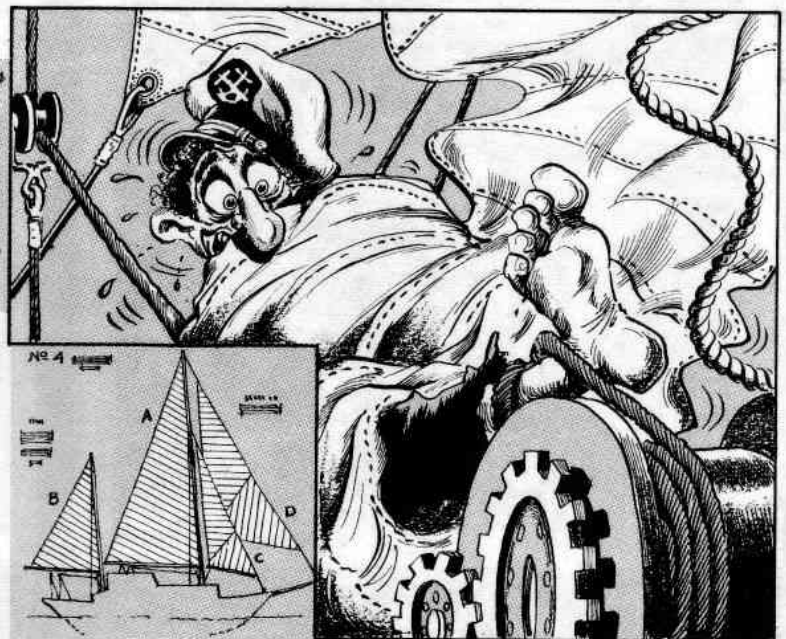

STEP NO. 2: ASSEMBLING THE HULL. FIRST, CHECK YOUR HULL PLATES (NOS. 121 & 492) FOR MANDRILLS. THEN TAKE YOUR NO. 4 FLATCHER AND SLOWLY TURN THE CAMS ON THE CENTER MUNG-SHAFT (H). ADJUST BOTH C AND D DECK HATCHES TO THEIR PROPER HEIGHT BY PLACING THE HEIST-BOOM LEVEL WITH THE GRIB SPROCKET. IF YOU PREFER, YOU CAN REARRANGE THE LOCATION OF THE TOP AND BOTTOM DOGGLES SO THAT THEY COINCIDE WITH THE CENTER PORT STABILIZER.

THIS BEAUTIFUL YACHT

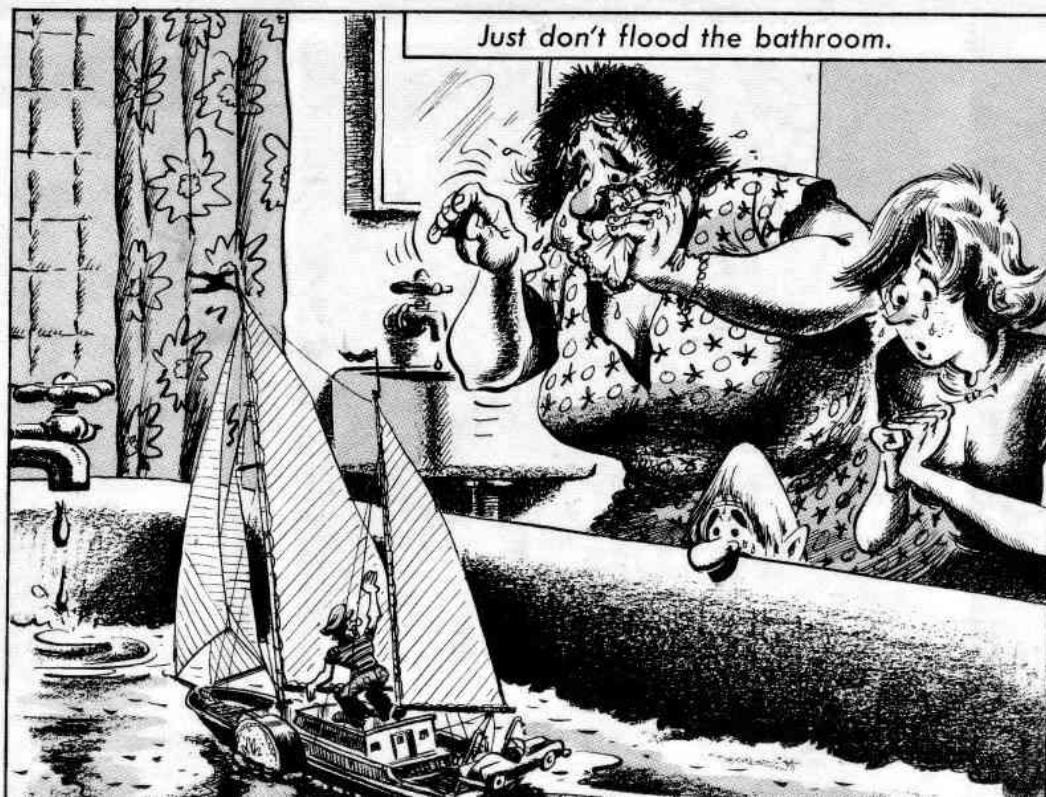

STEP NO. 3: PLACING THE MASTS. DON'T RELY ON YOUR 7" GORQUE FOR THIS. INSTEAD USE YOUR 13" GRIVET, REMEMBERING TO ALLOW FOR WARP-AGE IN WINTER MONTHS. NOTE THAT DIAGRAM #56 IS ONLY FOR ODD THURSDAYS. AT ALL OTHER TIMES USE DIAGRAM #59 OR ASK CONDUCTOR. IN ADJUSTING YOUR DRUNG-ROPE, REMEMBER TO ATTACH IT ON THE TOP OF THE WIGGET, NOT ON THE SIDE. A REMINDER: THE CENTER-POINT SWIVEL SHOULD NOT BE PINNIED.

STEP NO. 4: HOISTING THE SAIL. YOUR NO. 7 GEDNEY WINCH SHOULD COME IN HANDY HERE. LINK IT TO YOUR DRY-BEAM STILTI-FIER MAKING SURE THAT YOU HAVE CHECKED THE AFT DECK FOR FORNETS. THEN, USING A TURNER MULTI-PRONGED BOGGER (PER-HAPS YOUR NEIGHBOR HAS ONE), INSERT WIGGETS A & B INTO THE GRIB SPROCKET AND STAND BACK.

STEP NO. 5: EQUIPPING THE CABIN. IN ADDI-TION TO COMPASS, SEXTANT, AND RADAR SET, IT'S IMPORTANT THAT YOU INSTALL A GH-30 WAVE TRANDESCENDER. YOU CAN CONSTRUCT ONE EASILY FROM THE METAL PLATES LEFT OVER FROM YOUR NO. 7 FRABNEY HATCH AND THE SCREWS REMAINING FROM YOUR STARBOARD MANDRILLS. IF YOU LIKE A REALLY MODERN BOAT, PERHAPS YOU'LL WANT TO INSTALL A SELF-CONTAINED GORF RECEIVER (WITH OR WITHOUT BATTERIES).
